Since it is for the State Governments to consider the above suggestion and decide upon the specific areas before drawing up the action plan, it is not possible at this stage either to compile information about the population of the areas (which are to be ultimately identifier by the States), or to make projections of the likely expenditure in regara to each. area. The release of assistance to voluntary organisations is made after studying their requirements but would depend upon the availability of the resources at the given point of time.
